

WHAT IS AR?

Augmented Reality (or AR) is the enhancement of the physical world by adding a digital layer on top of it, typically experienced through smartphones and tablets. Imagine scanning a real estate page in a magazine and experiencing a 3D floor plan right in front of you!

WHAT 360ACTIVATE DO WITH AR

We design, create and publish your very own app (on both Apple and Android) that your client/customer can download and use to interact with your AR experience.

THE BEST WAY TO EXPERIENCE AR IS TO TRY IT NOW!
